

2026-27 Sports Premium

In 2026-27, Holy Family Catholic Primary School will receive **£8,020** for the PE and Sports Premium. Although the school has an excellent record of accomplishment of providing excellent sporting opportunities, we will spend the sport funding on raising the profile and outcomes in PE, Sport and physical activity across school.

Total number of FT pupils on role: 240 (includes Nursery)

At Holy Family, we plan to spend the money in the following ways:

Objective	Cost	Intended Impact
1. To pay for our entry into the Salford School's Sports Partnership.	£1050	To sustain school's platinum sports mark This gives us access to resources and networking opportunities with over 60 other Salford Primary Schools. This has numerous benefits including regular national and local events. Raised attendance levels due to variety and range of clubs. High percentage of children involved in extracurricular activities. Pathway into Level 2 competition. Most importantly it gives us entry into numerous sporting events and competitions throughout the year, at level

		2 and level 3. Without this we wouldn't be able to provide as many sporting opportunities for our children as we do. Engagement within Salford School Sports Partnership to create sporting links with other primary schools.
2. CPD	£1500	The CPD will enable the sports coach to develop a wider range of teaching strategies, adapt activities to meet the needs of all pupils, and promote greater participation, enjoyment and engagement in physical activity. This will support pupils to develop their physical literacy, teamwork, resilience and confidence, while ensuring that PE provision is inclusive and accessible to all. The increased expertise of the sports coach will also have a sustainable impact by enabling them to share their learning and good practice with teaching staff, supporting improvements in the quality and consistency of PE teaching across the school.
3. Enrichment Days	£1000	Organization visits to help enthuse the pupils to take part in wide variety of sporting activities, previously undertaken. Children to be made aware of the expectations and lifestyles of sporting professionals.
4. Updated/renewed sporting equipment	£1000	The intended impact is to increase pupil participation, engagement and enjoyment in physical activity by providing equipment that is suitable for a range of abilities and sports. New and improved equipment will support the development of pupils' physical skills, coordination, teamwork, confidence and understanding of different sporting activities.

		The investment will also ensure that PE provision remains inclusive, allowing pupils of different ages, abilities and needs to participate fully. High-quality, well-maintained equipment will provide a sustainable resource that can be used across the school year to support a broad and balanced programme of PE, sport and physical activity.
5. Get Set 4 PE subscription	£700	The curriculum scheme will also provide staff with increased confidence and guidance when planning and delivering PE, helping to ensure that pupils receive a consistent and high-quality PE experience. Over time, this will contribute to increased pupil competence, positive attitudes towards physical activity and greater participation in sport both within and beyond school.
6. Repainting of courts	£1000	This will increase opportunities for pupils to be physically active throughout the school day, including during PE lessons, breaktimes, lunchtimes and extracurricular activities. Clearly defined court markings will support the delivery of a wider range of sports and activities, helping pupils to develop their physical skills, coordination, teamwork, confidence and understanding of different games. The improved facilities will also encourage greater participation and enjoyment of physical activity, providing an attractive and purposeful outdoor space that can be used by pupils of different ages and abilities. The refreshed courts will provide a sustainable improvement to the school's sporting facilities and support the long-term aim of increasing physical activity and participation in sport.

7. Maintenance of a school minibus to transport children to additional sporting activities and competitions.	£1,000	Transport provided to take school's teams to a variety of competitions. Increased proportion of pupils participating in an increased range of competitive sports through the school sports bronze package. Quality training for the Sports Coach in co-ordinating PE across school.
8. Memberships	£800	These partnerships will provide greater opportunities for pupils to represent the school, experience competition and engage with different sporting activities. The investment will therefore contribute to a sustainable increase in participation, enjoyment and achievement in PE, physical activity and school sport.
Total:	£8,050
